

Til styreformann i Magseis Fairfield ASA Wenche Kjøllås,

BEHOV FOR FAGLIG KOMPETANSE OG ERFARING I STYRET

Aksjeeiere som representerer mer enn 5 prosent av aksjekapitalen i Magseis Fairfield ASA har anmodet styret om å innkalle til ekstraordinær generalforsamling for å velge nytt styret i Selskapet.

Aksjeeierne mener bestemt at det nyvalgte styret mangler nødvendig faglig kompetanse og erfaring for å sikre videre utvikling og vekst for Selskapet. Dette medfører øyeblikkelige virkninger etter at de to største aksjonærene valgte å stemme ut Jan Bertil Gateman, gründer og eneste medlem med nødvendige fag-kunnskap og erfaring.

Norske myndigheter fremhever at teknologi og forskning har vært avgjørende for at olje- og gassindustrien etter over 50 år fortsatt er Norges største og viktigste næring. Dette vil også være svært viktig i tiden fremover. Gjennom forskning, utvikling og demonstrasjon av ny teknologi, har det siden starten blitt arbeidet for å finne gode løsninger på hvordan man mest mulig effektivt, kan bygge ut og produsere norsk olje og gass, samtidig som man skal etterstrebe høye HMS-standarder og redusere belastning på klima og miljø. Teknologi er en forutsetning for å løse både dagens og morgendagens utfordringer.

Teknologi er grunnlaget for Selskapets videre vekst og verdiutvikling - i Norge og internasjonalt.

Derfor foreslår vi følgende nye kandidater til styret i Selskapet:

- **Eivind Frømyr** (1956) - tidligere sjefsgeofysiker i Magseis Fairfield ASA.
 - Utdannelse: B.Sc. Economy og M.Sc. Cybematics fra UiO, Visiting Scholor Stanford University.
 - Erfaring : Lang karriere innen teknologi utvikling innenfor seismikk industrien (PGS, Read Well Service, Geco, DNV).
- **Erik Sverre Jenssen** (1957) - tidligere MD (deputy) i Lundin Norway AS.
 - Utdannelse: M.Sc. Petroleum Technology (NTH).
 - Erfaring: 34 års erfaring fra U&P selskaper (Statoil, Saga Petroleum, Norsk Hydro, Aker Geo, Lundin).
 - Verv: innen oljeindustrien og forskningsinstitusjoner (ONS, NPF, Sintef, Rogalandsforskning).
- Begge kandidater er godt kjent med Selskapets virksomhet og har sagt seg villige til å delta i Selskapet styret og tilføre Selskapet kunnskap og erfaring for å sikre videre utvikling og vekst. Deres CV-er følger vedlagt.

Ny styresammensetning:

Etter valg av nevnte kandidater for neste 2 år foreslår vi at det nye styret består av følgende medlemmer:

- **Wenche Kjøås - styreleder**
- Angela Durkin - medlem
- Anthony Dowd - medlem
- Eivind Frømyr - medlem
- Erik Sverre Jenssen - medlem
- Ansatt styremedlem
- Ansatt styremedlem

Vennlig hilsen

Jan P. Grimnes
